

Dainik Lokmat March 1st 2005

This is a widely read vernacular newspaper in Pune. On 1st March they carried a one page article on the rehabilitation project of Kamgar Putala titled 'Baadhanitun Baandhilaki' . It covered the entire process of the struggle spanning seven years in which SA/Baandhani finally managed to successfully rehabilitate 176 families of the flood and project affected families of Kamgar Putala and Rajiv Gandhi Nagar. This article written by Parag Potdar very sensitively covers various issues which plagues slum relocation projects and the effects of these on the lives of the slumdweller.
