

“Enhancing Lives
Beyond Corona”

Feeding the hungry

The citizens of Kolhapur city are known for their humanitarian and helping nature. Amol Deshingkar, resident of Avchit Nagar, Kolhapur proves this very well. He provided social and financial help during the Kolhapur floods and continues to do so during the Covid19 outbreak. His helping nature got him enrolled as a Shelter Associates volunteer and having receiving proper training, he actively participates in spreading positive awareness, busting the myths of people and giving valuable advice on building immunity. More so, he personally donated Rice packets of 2 kg each to 100 families in the settlement. Apart from that, whenever the residents fall sick, Amol arranges for their transport to the nearest health centre. He is a living example of Leo Tolstoy's statement that says, "The sole meaning of life is to serve humanity."
